Ideal Cost Effective Storage Solutions
for Industrial Tool Applications

Our Profile

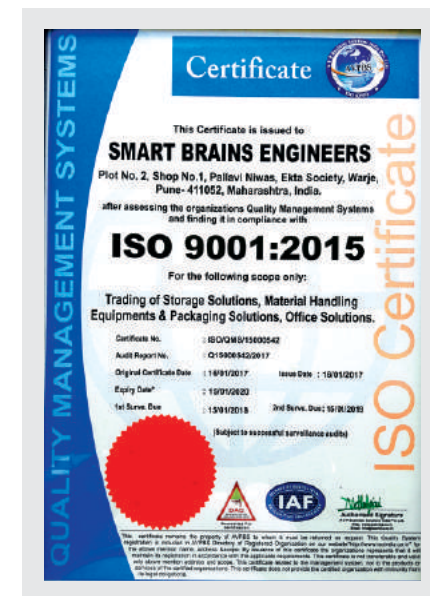

“**SMART BRAINS ENGINEERS**” is young and energetic organisation incepted in 2013. We are an ISO 9001-2015 Company with a strong techno-commercial team having people with passion for achievement. Our experienced technocrats are having relevant experience of more than 14 years and have been engaged previously with various Domestic & Multinational Companies in application based solution building.

SBE is delicately engaged in providing “**SHOP FLOOR SOLUTIONS**” to its Clients with a belief to make “**THE WORK SPACE WORK FOR YOU**”. Our Products are being produced using premium class basic material with the help of state of Art technology. Leveraging our deep understanding of the industries, a dedicated team of professional and a sound infrastructure we are able to provide a premium quality range and cost effective solutions.

We also offer vast range of storage solutions ranging from Selective Pallet Racking System, Long Span Shelving, Heavy Duty Shelving, Slotted Angle racks, Mezzanine System etc.

Our core value is customer first, integrity, passion, commitment and trust which help us to maintain long term relationship with our clients to achieve their goals by providing them with innovation products optimized and economical solutions.

The expertise of SBE is to focus on providing solutions to enhance the Warehouse and Production facility to next level & high standards. Having worked with all industrial segments and applications, we possess the requisite knowledge and expertise to conceive and implement efficient cost effective end to end solutions for all of above needs.

Tool Cabinets

Application :

Used for storing of Machine Tools, Components & Hardware.

Structure :

Prime Quality CRCA Sheet.

Specification :

Drawers have Full Pull-Out.
Load capacity - 100 kg. UDL.
Perforated Drawers.
Locking system - Centre Locking.
Lock keys- 2 Nos.
Finish :
Powder Coating.
